

Hood's Cures

After the Grip it Restores Health and Strength.

Dr. George C. Hood

Is well known in Wisconsin as a manufacturer of colic powders and tonics for horses, and is a reliable authority on equine diseases.

"Madison, Wis., Jan. 30, 1895."

"I cannot speak in too favorable terms of the hood's cures. I have had many cases of colic, and after the grip, I tried physicians, went to the hospital, and all sorts of remedies, but did not get well. I am a native of Hood's farm, and have been a good deal around since then to see the effects. I am now a strong man, and have had no trouble with my bowels since. I am now in full health, and feel well again. I would not say anything to favor it, but, if you will, I will do so."

Dr. Kimer's SWAMP-ROD,
GRAVEL GRAVEL-RAVEL,
GRASS-ROD, ETC.

Dr. Kimer & Co., Birmingham, N. Y.
(Established 1852.)
We are the original inventors and manufacturers of our own brand of swamp-rod, grass-rod, gravel-rod, etc., and have sold every doctor in our town, continued to suffer and decline until we had a cure.

The most learned physician in the country has been unable to find any other treatment for the grip than our own. We have never had a case fail to respond to our treatment. Every one fails at first, given up, and seems doomed to die, but, if you will give us a chance, we will cure you. We have the best news of your swamp-rod, grass-rod, gravel-rod, etc., and can give you a sample of the same or part that was dissolved in water, and show you how it acts. It must have been as large as a good sized grape. I am feeling as well as ever, and have had a very good time. If any one doubts my statement, I will send him a sample of our swamp-rod, and a small piece of the bark, and he will see for himself. — Marysville, Ohio, Dec. 26th, 1895."
